

### **[Andrew Sever](#), Co-founder & CEO at Sumsub**

Andrew has been CEO at Sumsub since he co-founded the company in 2015. He leads the company's operations, business development, sales, and global expansion. Under his leadership, Sumsub has grown from a small startup to a leading full-cycle verification platform with 450+ employees, 5 international offices and 2,000+ clients across 220 countries and territories. The industries adopting Sumsub's solutions include fintech, crypto, gaming, trading, e-commerce and transportation.

Before launching Sumsub, Andrew worked as a C-suite manager at leading IT and automotive firms. He holds a degree in theoretical physics and has previous entrepreneurial experience building neural networks.

Andrew has recently been published in [Forbes](#). You can also read his articles and interviews in [Spiceworks](#), [Casino Beats](#), [Gambling Insider](#) and [Fintech Finance](#).

Andrew currently lives in Limassol, Cyprus.

### **[Peter Sever](#), Co-founder and Chief of Strategy at [Sumsub](#)**

In 2015, Peter co-founded Sumsub with his brothers Andrew and Jacob and their friend Vyacheslav Zholudev. He has played a key role in transforming the company from an identity verification startup with just a dozen employees to a global tech platform serving 2000+ businesses worldwide.

As a Chief Strategy Officer, Peter's main focus is sustaining company growth by meeting market demand and planning new product features and functionality. He is one of the main reasons Sumsub customers always get products tailored to their unique business needs.

Peter is a seasoned expert in turning strategy and vision into reality. His wealth of experience in scaling and business growth has helped Sumsub grow from a KYC provider into what it is today: the one verification platform to secure the whole user journey.

Peter's UX/UI and product development expertise is what keeps Sumsub's clients satisfied. He also helps diversify Sumsub's client portfolio to include various industries such as crypto, gambling, fintech, e-commerce, marketplaces, trading, and transportation.

Check out Peter's interview in [Authority Magazine](#) and his articles on [Medium](#).

Peter currently lives in Limassol, Cyprus, where he enjoys playing tennis.

### **[Jacob Sever](#), Co-founder and Chief of Innovation at [Sumsub](#)**

In 2015, Jacob co-founded Sumsub with his brothers Andrew and Peter and their friend Vyacheslav Zholudev. He is a key driver of growth at Sumsub, which now works with 2,000+ clients in 220+ countries and territories, with a client portfolio ranging from fintech to e-commerce and car-sharing services.

As Chief of Innovation at Sumsb, Jacob is responsible for delivering top-notch products and driving innovation ahead of the market. Jacob brings a wealth of data-driven market insights to the table, helping businesses handle compliance, anti-fraud, and verification challenges with innovative solutions and expert support.

As Chief of Product and Compliance at Sumsb from 2015 to 2022, Jacob cemented Sumsb's industry expertise in compliance and tech development, transforming the company into the first-ever Compliance-as-a-Service provider in 2022.

Jacob's areas of expertise include blockchain, Web3, crypto, ID verification, product development, anti-fraud and regulatory compliance.

Before co-founding Sumsb, Jacob worked as a C-suite manager at top IT companies. These roles built up his expertise in product design and innovation, which he now puts to use daily as Chief Innovation Officer at Sumsb.

Jacob's has been featured by Cointelegraph in "[Web3: Marketing Buzz or Tech Revolution](#)" (2022). You can also read his articles in [Forbes](#), [HackerNoon](#), [The Entrepreneur](#) and [FinTech Futures](#).

Jacob currently lives in Limassol, Cyprus. He enjoys sailing and windsurfing.

### **[Vyacheslav Zholudev](#), Co-founder and CTO at Sumsb**

Vyacheslav is the co-founder and CTO at Sumsb, a full-cycle verification platform to secure the whole user journey. He brings unparalleled technical and entrepreneurial acumen to help Sumsb's development team reach complex goals effectively. Vyacheslav holds a Ph.D. in Computer Science from Jacobs University (Germany), with experience working as a solution architect at ResearchGate.

Vyacheslav has been interviewed for [Dojo Live](#), [Biometric Update](#), [Tech Wire Asia](#) and the [State of Identity](#) podcast.

He is an expert in privacy protection, ID verification trends, digital fraud prevention and international regulatory compliance regarding personal data.

Vyacheslav lives in Berlin, Germany.
